SKILLS

- **Languages:** C, C++, JavaScript
- **Technology:** HTML5, CSS3, RESTful APIs
- **Frameworks:** React.js, Node.js, Express.js, Tailwind CSS, Bootstrap
- **Databases & Tools:** MySQL, MongoDB, Git, GitHub, VsCode, Generative AI, Prompt Engineering
- **Soft Skills:** Problem - Solving, Decision Making, Time Management, Communication

PROJECTS

ResuAI – AI Resume Analyzer | [Link](#)

May' 2026

- Developed an intelligent resume analysis application that utilizes the Groq API to compare resumes with job descriptions and generate ATS-friendly recommendations.
- Applied automated resume parsing, AI-powered keyword analysis, and skill-gap detection to improve resume quality and job-role alignment.
- Enhanced user experience with a responsive interface, secure document upload, and real-time AI feedback for efficient resume evaluation.

Tech: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, HTML5, Groq API

TicketFlix – Online Ticket Booking System | [Link](#)

Apr' 2026

- Engineered a full-stack ticket booking platform that enables users to browse events, reserve seats, and manage bookings through an intuitive and responsive interface.
- Executed secure user authentication, real-time seat availability updates, and booking management to ensure a seamless ticket reservation experience.
- Integrated RESTful APIs and database operations for efficient event management, ticket booking, and user data handling while maintaining application performance.

Tech: React.js, Node.js, Express.js, MySQL, JavaScript, HTML5, Tailwind CSS

Intellectual Property Facilitation Center Management System | [Link](#)

Dec' 2025

- Built a centralized IP management system to handle services like patents, copyrights, trademarks, and design registrations efficiently.
- Designed a structured application workflow for documentation, verification, and approvals, enabling smooth coordination between users, administrators, and experts.
- Implemented secure tracking and record management features to monitor application status and ensure transparent IP service operations.

Tech: HTML5, Tailwind CSS, JavaScript, React.js, Node.js, MongoDB

TRAINING

Mastering Data Structures & Algorithms Training | [Link](#)

Jun' 2025 – Jul' 2025

- Practiced core data structures including arrays, linked lists, stacks, queues, trees, graphs, and hashing through hands-on coding.
- Employed fundamental algorithms such as searching, sorting, recursion, and greedy techniques.
- Improved understanding of algorithm design, time complexity, and performance optimization through practical implementation and testing.

CERTIFICATES

- Generative AI – Skill Development Program - **NASSCOM** | [Link](#)

Feb' 2026
- Privacy and Security in Online Social Media - **NPTEL** | [Link](#)

Apr' 2025
- C Programming Language - **Cipher School** | [Link](#)

May' 2024

ACHIEVEMENTS

Patent Publication | [Link](#)

Jul' 2025

Designed and built a system that detects unconsciousness and automatically triggers an emergency alert.

3 stars in C++, 3 stars in C on Hacker Rank | [Link](#)

Jul' 2025

Achieved high competitive programming ratings with strong problem-solving across multiple programming languages.

EDUCATION

Lovely Professional University

Phagwara, Punjab

Bachelor of Technology – Computer Science and Engineering; **CGPA: 7.58**

Aug' 2023 – Present

Bhartiya Bal Vidya Mandir Sr. Sec. School

Agra, Uttar Pradesh

Intermediate; **Percentage: 82**

Apr' 2021 – Mar' 2022

St. Mary's Convent School

Agra, Uttar Pradesh

Matriculation; **Percentage: 84.4**

Apr' 2019 – Mar' 2020
